Contributors should note the following points concerning the presentation of manuscript material.

1. Articles should be submitted in duplicate and should be type-written on one side of 8 x 10 inch paper with double spacing and margins of at least 1½ inches.
2. A separate sheet should preface the article bearing its title, the name(s), degrees (if contributor desires to include them), qualifications, and address of the author. Where more than one, use address only of principal author.
3. References should be typed in a separate list in the same format as used for the article. They should be placed at the end of the article and should conform to the following style: name of author, title of article, name of periodical (suitable abbreviation), volume, number, pages, month and year, e.g., Beckett, L.S.—Full dentures with fewer tears. (*Austral. D. J.*, 4: 5, 287-298 (Oct.) 1959.
Original sources only should be used unless an abstract is cited, in which case the original and abstract source should be quoted.
Where a reference is made to a book the form should follow: Goldman, H. M.—*Periodontia*. St. Louis, The C. V. Mosby Co., 3rd ed., 1953 (p. 378).
References should be numbered and placed in the same order as that of the superior figures which appear in the text.
4. Illustrations accompanying the manuscript should be identified with the author's name, the word "top" placed in the appropriate position and a number corresponding to the figure number inserted in the appropriate place in the manuscript. These details should be on a gummed label attached to the back of the illustration, not written on the illustration itself. **All illustrative material should be packed between firm cardboard to prevent damage in transit.**
5. Original drawings should be sent and these should be prepared and lettered in black Indian ink.
6. Photographs should be high quality gloss prints and should not be retouched. Any lettering should be indicated on a transparent overlay. Illustrations should be 4 x 5 inches or in that proportion. Where an author has numerous small illustrations it is advisable to communicate with the Editor before final preparation of the paper to enable the best presentation to be made. Authors are required to **indicate the magnification of photomicrographs** submitted for publication.
7. Legends for each illustration should be typewritten in a separate list with numbers corresponding to those on the photographs and drawings.
8. Where there are tables, these should be prepared on separate sheets and numbered appropriately. Each table must have a descriptive legend.
9. Ten blocks and/or tables will be reproduced without cost to the author. Arrangements should be made with the Editor for extra illustrations, tables, and colour reproductions. An estimate of cost will be sent and this charge must be met before the article is finally accepted for publication.

All expressions of opinion and all statements of supposed facts are published on the authority of the author under whose name they appear. No statement is to be regarded as expressing the official opinion of the **Australian Dental Association** or of any of its Branches unless such statements or opinions are expressly issued by the Association or one of its Branches.
