Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part IX. A novel aromatisation during Hofmann degradation By K. W. BENTLEY, H. P. CROCKER, R. WALSER, W. FULMOR, and G. O. MORTON	2225
Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part X. Further acid-catalysed rearrangements of alcohols in the 6,14- <i>endo</i> -ethenotetrahydrothebaine series By K. W. BENTLEY, D. G. HARDY, B. MEEK, J. B. TAYLOR, J. J. BROWN, and G. O. MORTON	2229
Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part XI. The base-catalysed rearrangement of dihydrothebainequinone By K. W. BENTLEY and B. MEEK	2233
Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part XII. Derivatives of 7-amino-6,14- <i>endo</i> -ethenotetrahydrothebaine By K. W. BENTLEY, D. G. HARDY, and A. C. B. SMITH	2235
Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part XIII. 7-Amino-methyl-6,14- <i>endo</i> -ethenotetrahydrothebaines By K. W. BENTLEY, J. D. BOWER, J. W. LEWIS, M. J. READHEAD, A. C. B. SMITH, and G. R. YOUNG	2237
Novel analgesics and molecular rearrangements in the morphine-thebaine group. Part XIV. Substitution in the aromatic nucleus in derivatives of 6,14- <i>endo</i> -ethenotetrahydrothebaine By K. W. BENTLEY, J. D. BOWER, and A. C. B. SMITH	2241
Steroid boranes. Part III. Isomerization of steroid boranes By J. E. HERZ and L. A. MÁRQUEZ	2243
Organolithium chemistry of <i>N</i> -heterocycles. Part I. Action of phenyl-lithium on 2-methylpyridines and 2-methylquinolines By A. M. JONES, C. A. RUSSELL, and S. SKIDMORE	2245
Organolithium chemistry of <i>N</i> -heterocycles. Part II. Oxidation of 2-quinolylmethyl-lithium and related compounds by molecular oxygen By A. M. JONES and C. A. RUSSELL	2246
Mechanism of heterocyclic ring expansions. Part III. Reaction of pyrroles with dichlorocarbene By R. L. JONES and C. W. REES	2249
Mechanism of heterocyclic ring expansions. Part IV. Reaction of an imidazole, pyrazole, and 1,2,4-triazole with dichlorocarbene By R. L. JONES and C. W. REES	2251
Mechanism of heterocyclic ring expansions. Part V. Base-catalysed rearrangement of 2-dichloromethyl-2,5-dimethyl-2 <i>H</i> -pyrrole and related compounds By R. L. JONES and C. W. REES	2255
Ferrocene derivatives. Part XXI. Lithiation of 1,1'-bis-(<i>NN</i> -dimethylaminomethyl)ferrocene By E. S. BOLTON, P. L. PAUSON, M. A. SANDHU, and W. E. WATTS	2260
Formation of methyl 2,6-anhydro-3,4- <i>O</i> -isopropylidene- α - and - β -D-talopyranosides by an intramolecular displacement in the methanolysis of 1,6-anhydro-3,4- <i>O</i> -isopropylidene-2- <i>O</i> -methylsulphonyl- β -D-galactopyranose By N. A. HUGHES	2263
Reaction of anthraquinone with some alkylmagnesium halides. Configuration and conformation of 9,10-diethyl- and 9,10-di-n-propylantracene-9,10-diols By D. COHEN, L. HEWITT, and IAN T. MILLAR	2266
Cyclic quaternary ammonium salts. Part VI. Synthesis of thiazolo[3,2- <i>a</i>]pyrazin-5-ium salts By J. ADAMSON, E. C. CAMPBELL, and E. E. GLOVER	2270

Synthesis of ethynylphosphonate esters. A novel organosilicon rearrangement By D. W. BURT and P. SIMPSON	2273
The triphenylphosphine-benzotrifuroxan reaction. Part I. By A. S. BAILEY, J. M. PEACH, C. K. PROUT, and T. S. CAMERON	2277
The triphenylphosphine-benzotrifuroxan reaction. Part II. Crystal and molecular structure of a 'yellow compound', 1,3,5-trinitro-2,4,6-tris(triphenylphosphoranylideneamino)benzene By T. S. CAMERON and C. K. PROUT	2281
The triphenylphosphine-benzotrifuroxan reaction. Part III. Crystal and molecular structure of a 'light green compound', 4-nitroso-5-triphenylphosphoranylideneaminobenzo[1,2- <i>c</i> :3,4- <i>c'</i>]difurazan By T. S. CAMERON and C. K. PROUT	2285
The triphenylphosphine-benzotrifuroxan reaction. Part IV. Crystal and molecular structures of a red compound; the hydroxytriphenylphosphonium salt of 4-imino-8- <i>aci</i> -nitrobenzo[1,2- <i>c</i> :4,5- <i>c'</i>]difurazan By T. S. CAMERON and C. K. PROUT	2289
The triphenylphosphine-benzotrifuroxan reaction. Part V. Crystal and molecular structure of a 'blue compound', 8,8'-bis(triphenylphosphoranylidene)bi(benzo[1,2- <i>c</i> :4,5- <i>c'</i>]difurazan-4-ylidene) By T. S. CAMERON and C. K. PROUT	2292
The triphenylphosphine-benzotrifuroxan reaction. Part VI. The crystal and molecular structure of a 'dark green compound', 5-triphenylphosphoranylidenebenzo[1,2- <i>c</i> :3,4- <i>c'</i>]difurazan-4(5 <i>H</i>)-one 3,8-dioxide By A. S. BAILEY, J. M. PEACH, T. S. CAMERON, and C. K. PROUT	2295
Formation of 2,6-dimethoxy-1,4-benzoquinone by the action of nitrous acid on 1,2,3-trimethoxybenzene By H. I. BOLKER and F. L. KUNG	2298
Some steroid phosphates and related compounds By R. J. W. CREMLYN and N. A. OLSSON	2305
Addition reactions of heterocyclic compounds. Part XL. Methyl propiolate with some quinolines, isoquinolines, and phenanthridines By R. M. ACHESON and M. S. VERLANDER	2311
Addition reactions of heterocyclic compounds. Part XLI. Photolysis of some quinolizine esters By R. M. ACHESON and J. K. STUBBS	2316
1,3-Addition reactions of cyanogen di- <i>N</i> -oxide By N. E. ALEXANDROU and D. N. NICOLAIDES	2319
The chemistry of triterpenes and related compounds. Part XLVI. Some novel products from the ozonolysis of methyl acetylbetulinate By R. T. APLIN, ROSALIND P. K. CHAN, and T. G. HALSALL	2322
South African plant extractives. Part II. Alkaloids of <i>Teclea natalensis</i> By K. H. PEGEL and WINIFRED G. WRIGHT	2327
Polyfluorocycloalkenes. Part VIII. The stereoisomeric 2 <i>H</i> -perfluorocyclo-pentyl and -hexyl methyl ethers By A. B. CLAYTON, R. STEPHENS, and J. C. TATLOW	2329
The vanadium pentoxide-catalysed oxidation of thio-compounds with hydrogen peroxide By F. E. HARDY, P. R. H. SPEAKMAN, and P. ROBSON	2334
Polyhalogeno-aromatic compounds. Part IX. Reactions of hexabromobenzene with nucleophiles By I. COLLINS and H. SUSCHITZKY	2337
Polyhalogeno-aromatic compounds. Part X. Preparation of pentabromophenyl and tetrabromo-4-pyridyl derivatives of lithium and magnesium, and the generation and trapping of tetrabromobenzene and tribromo-3-pyridyne By D. J. BERRY and B. J. WAKEFIELD	2342
Synthesis of 3-oxabicyclo[3,1,1]heptanes by rearrangement of 2-oxaspiro[3,3]heptanes By W. P. COCHRANE, P. L. PAUSON, and T. S. STEVENS	2346
