**Aims and Scope:** The *Journal of Evidence-Based Medicine* is the official English language journal of The Chinese Cochrane Centre. The journal aims to present the newest research results and promote the international understanding and development of evidence-based decision-making, research, practice, and education. Papers in any of the following fields will be considered: editorial, commentary, systematic review, clinical trial and register, methodology, policy-making and management, drug safety, education, patient safety, and knowledge translation. The journal encourages submissions from interdisciplinary studies and all manuscripts are blind peer reviewed.

**Publication Frequency:** Four issues per year.
